

Highbush Blueberry Information Chart

Cultivar	Season	Fruit Quality			Shrub Habit height x width and other notes	Pruning
		Fruit Size	Fruit Color	Fruit Firmness		
Duke	Early	medium to large	light blue	very firm	Max 4'x6', Slightly tart	Fruits on current season's wood so prune early to encourage better fruit production.
Patriot	Early	large	medium blue	firm	Max 5'x5', Fiery orange-red Fall foliage	
Bluecrop	Midseason	medium to large	light blue	very firm	Max 6'x4', most adaptable	
Jersey	Midseason	medium	light blue	firm	Max 8'x5', Favorite for baking	
Bluejay	Mid to Late season	med/large	light blue	firm	6'x6' - Fruit holds on bush for a long time	
Legacy	Late	large	light blue	firm	6'x6' - Retains golden fall foliage into winter	

For more fruit, choose 2 of the same or different Cultivars from the same Season or overlapping Seasons, i.e. Early to Mid or Mid to Late.

Native- Lowbush Blueberry Information Chart

Cultivar	Season	Fruit Quality			Shrub Habit height x width and other notes	Pruning
		Fruit Size	Fruit Color	Fruit Firmness		
Vaccinium angustifolium- Species	Midseason	pea-sized	blue-black	firm	Max 18"x24", Exposure: sun/part shade	Not necessary each year but responds well to shearing back by two-thirds every 2nd or 3rd year.
